"THE WITNESS is one man's truth that cries out for mass exposure...may be the most important and persuasive film about animals ever made."

—Howard Rosenberg, LOS ANGELES TIMES

"Unbelievably powerful. It changed my life." —PBS Viewer

"THE WITNESS is a mythic story of relationship — about how the honest and simple affection of a tiny cat grows one man's heart so big that it spills its compassion all over the city of New York."

—Susan McElroy, Author

"Measured and bewildering, *THE WITNESS* allows us to do just that: to witness, to watch, with jaws dropped and eyes moist. See it — you'll be changed."

—THE HOUR Montreal News Weekly
